

*You are invited to join a press conference  
launching a new report from the Resilience Centre:*

## **The power to transform the South West:** **How to meet the region's energy needs through renewable energy generation**

*9:30 – 11:00am. Thurs 23rd April 2015  
At-Bristol, Anchor Road, Harbourside, Bristol, BS1 5DB*

The report finds that the region has the renewable energy resources to meet more than 100% of its total energy needs. The report demonstrates how renewable energy could see the creation of 122,000 jobs and generate £11 billion a year for the South West Economy.

Join a panel of experts on the potential for renewable energy across the South West:

**Molly Scott Cato**, Green MEP for SW England

Introduction, opportunities and challenges

**Andrew Clarke**, Resilience Centre

The technical case for renewable energy  
across the South West

**Darren Hall**, Bristol Green Party

Renewable energy in action - local success stories

**Tony Dyer**, Bristol Green Party

The potential for job creation

The report was commissioned by Molly Scott Cato, Green MEP for South West England, and funded by the Green/EFA group in the European Parliament.
